NEARING A CALAMITY.

Crop Situation In Kansas Desperate Owing to Heat and Drought.

CORN TWO HUNDRED MILLION SHORT.

Farmers of the Southwest Heavy Losers Because of the Weather Conditions—No End to the Torrid Spell.

Chicago, July 12.—Advices to the board of grain and commission houses are that the heat and drought in the southwest is unbroken. It is said that the damage outside of Kansas and Missouri is slight, but that unless there is relief within the next 10 days the corn crop situation will approach a calamity. A message from Topeka, Kan., says the prospects are for a crop of but 50,000,000 bushels of corn, although last year's crop was 163,000,000, and that of the previous year 277,000,000. The loss of hay and potatoes is also very great, second only to the loss of corn. It is estimated that the farmers of Kansas and Missouri have already lost \$50,000,000 by the torridity and drought.

The straits in which the corn crop is said to be situated owing to the intense heat and lack of moisture is reflected in the course of prices of that cereal on the board of trade. Corn for September delivery at the opening sold simultaneously from 57 to 52½, compared with the close Thursday at 51½@51½. Shortly afterwards this option was quoted at 52½, or 9 cents higher than the price one month ago, shortly before the heat and drought began to arouse misgivings as to the future of the crop. Not in years have natural conditions attracted the present prices in corn, although manipulation has at times forced them higher.

Distress In London.

London, July 12.—The heat wave here is becoming more tropical. Londoners were not prepared for it and consequently they are suffering greatly. There were many sunstrokes and prostrations and faintings in the streets, which kept the ambulances busy. The number of omnibuses running was considerably reduced in consequence of the exhaustion of horses, and the iron works and ship building yards were seriously handicapped on account of the enforced absence of the workmen, who were suffering from the heat.

Missouri Burning Up.

St. Louis, July 12.—According to the local weather officials there is no relief from the intense heat in sight. In parts of Missouri and southern Illinois the crops are being literally burned up by a temperature that during the past two days, ranged as high as 110. Records of 30 years have been broken.

No Sign of a Break.

Topeka, Kan., July 12.—Weather observer Jennings says there is no sign of rain or a break in the high temperature. The temperature averaged 100 over the state.

Scenes In the House.

London, July 12.—There were noisy scenes in the house of commons arising from a question as to whether the British wounded were left in the hands of the Boers at Vlakfontein. Lord Stanley, financial secretary of the war office, declared the war office had no information on the subject, but John Dillon, Irish Nationalist, backed up by the cheers and shouts of the Nationalists, piled Lord Stanley with questions until the speaker intervened. As Mr. Dillon declined to give way, the speaker named him, but after considerable uproar, a compromise was effected, Mr. Dillon giving notice that he will repeat his question Monday.

Epworth League Convention.

San Francisco, July 12.—Already about 2,000 eastern delegates to the Epworth League convention, which opens next Tuesday, have reached this city and are now enjoying side trips to various parts of the state. It is estimated from railroad reports of coming trains that 5,000 delegates will reach San Francisco by Sunday night, and 40,000 more by the following Thursday morning. The reception and entertainment committee is ready for all who come and has booked 10,000 accommodations in private houses, with an equal number in hotels over the city.

Struck Oil.

Guthrie, O. T., July 12.—The people of Granite, O. T., are wild with excitement over the discovery of oil near that town. The oil was found at the depth of 107 feet and spouted to the surface in great quantities.

Orangeman's Day.

Belfast, July 12.—The celebration of the battle of Boyne is being marked by the customary collisions, but no serious trouble has occurred, there being plenty of soldiers and police to control the factions.

MRS. EON N. INDIOTED

For the Alleged Killing of a Young Census Clerk.

Washington, July 12.—The grand jury, after several weeks' investigation, has just returned an indictment

MRS. BONINE.

for murder against Mrs. Ida Bonine for the alleged killing of J. S. Ayres, the young census clerk.

Koreans Massacre Christians.

Washington, July 12.—The reported uprising on the island of Quepar, off the Korean coast and the killing of several hundred Christian converts, is confirmed in advices reaching the Japanese legation, which contain the report of the captain of the Japanese man-of-war Senyen. The Senyen was at Chemulpo, Korea, when the first word of the uprising was received. She made a rapid run to the island, arriving June 2. The captain reports that when two French men-of-war had arrived at the island they found the insurgents in a menacing attitude. Attempts were made to land French marines. As the landing was opposed, the French ships made a demonstration and succeeded in landing their marines. The insurgents were then repulsed and two missionaries held by them were saved. After that affair quieted, the uprising was quelled. During the outbreak 200 converts were killed by the insurgents.

Block Lapped Up.

Mountainview, O. T., July 12.—Fire destroyed an entire block. Loss \$65,000. About 15 business houses were burned out. Mountainview is on the border of the Kiowa and Comanche county, and is crowded with homeseekers. The buildings destroyed include the First national bank, two grocery stores, two dry goods stores, a furniture store and a hardware store. Many of the homeseekers bound for Lawton, the second place of registration, which is 25 miles inland, purchased their supplies here and the losses will prove particularly hard on them.

Bank Run Ended.

Cleveland, July 12.—The run on the United Banking and Saving company, which began Wednesday, came to an end Thursday evening, by which time the depositors realized that the bank had ample funds to meet all demands. Some who had withdrawn their money returned it for deposit. The run was started by a Bohemian woman, who went to the bank for money before banking hours and was told to wait. She did not understand, and spread the report that the bank was closed.

Al Johnson's Will.

New York, July 12.—The will of the late Albert L. Johnson was filed in the surrogate's office, Kings county. The schedule accompanying the will gives no calculation of the real estate, but states the value of the personal property to be \$1,000,000 "so far as the petitioner knows." The income of one-third of the estate is left to the widow during life. All the remainder of the estate goes to the children.

Mexicans Holding Their Corn.

City of Mexico, July 12.—The high price of Indian corn, which cereal is the basis of the diet of the common people of this country, has attracted the notice of the government, and it is reported as probable that if the farmers do not sell the corn they are holding for speculation the government will take off the duty on American corn and otherwise aid in lowering the price.

Harry Mann Is Dead.

Saratoga, N. Y., July 12.—Emanuel Hayman, a prominent theatrical manager of New York city, known as Harry Mann, died here of bright's disease. The name Harry Mann was assumed when he went into the theatrical business. He was a brother of Al and Alf Hayman, both of whom were theatrical managers. He was born in Wheeling, Nov. 7, 1859.

Hanged For Attempted Assault.

Norfolk, Va., July 12.—Edward Payne, a negro, was hanged at Pulaski, for attempted criminal assault upon Miss Duncan, a white woman.

COLUMBIA WINS AGAIN

Defeats the New Cup Defender Constitution For the Third Time.

FOURTH OF SERIES A PRETTY RACE.

Feature of the Event the Fine Spin of the Crippled Independence. A Complicated Situation Develops.

Bateman's Point, R. I., July 12.—The Columbia won Friday's race, the fourth of the series, beating the Constitution by about a minute and a half at the finish. The feature of the day was the fine work of the Independence, which after losing her topmast at the very start, sailed a magnificent stern chase with all her upper sails gone and was only beaten by 10 minutes at the finish. The day was the best that the yachts have had so far, a fine breeze blowing from the northeast, which sent them over the triangular course of 30 miles in a little over three hours. The new Herreshoff yacht was never ahead, although getting within two minutes of the Columbia at the second mark. The Independence, after a delay of nearly six minutes in clearing away the wreckage, rounded the first mark about as many minutes behind the Columbia.

On the home run, a broad reach, the Herreshoff yachts being fairly smothered in canvas, finished with a lead something under five minutes. The result of the race was even more encouraging to the followers of the Boston yacht than Thursday's contest, and the next race between the three boats, whenever it occurs, will be looked forward to with great interest. On the other hand, the defeat of the new Herreshoff yacht Constitution for a third time by the old 1899 defender has still further complicated the question of selecting an America's cup defender and leaves the question of which is the faster yacht in ordinary breezes very much in doubt.

Little Miami Improvements.

Cincinnati, July 12.—There was a real estate mortgage left for record with the county recorder here to secure a bond issue of \$3,000,000. The mortgage is given by the Little Miami Railroad company to the Central Trust and Safe Deposit company as trustees. The document covers all the real estate and personal property belonging to the railroad company. The bonds will be known as "betterment bonds," and the money is to be expended for immediate improvement of the road. The betterment mortgage covers the Pennsylvania lines between Cincinnati and Columbus, via Xenia, on which double tracks are contemplated.

Historic Vessel to Be Sold.

Washington, July 12.—The secretary of the navy ordered the famous old Minnesota to be stricken from the naval register. A board of condemnation has just appraised her at \$15,000, and she will be sold at public auction at Boston, where she now lies. The Minnesota is one of the most noted vessels of the old navy. She was built in Washington in 1855, and was then the flagship of Admiral Goldsboro in the famous battle between the Merrimack and the Union fleet in Hampton Roads, the day before the Monitor arrived.

Wreck Victims.

Kansas City, July 12.—Another death was added to the list of victims of the Chicago and Alton wreck, near Norton, Mo., on Wednesday. Miss Lottie L. Still, aged 26 years, of Horrellville, N. Y., died at University hospital. She was badly burned about the arms, face and shoulders, and had been unconscious for nearly 48 hours. The bodies of three unknown dead at the morgue, two tramps and a man supposed to be Sidney Jones of Chicago, remain unclaimed.

McClurg Goes Free.

Hamilton, O., July 12.—After a trial of 13 days, Judge Milton Clark's jury at the end of six hours of deliberation, declared John McClurg, the rich Mason reclusive, innocent of the murder of his wife, Rebecca. The old man is 73 years of age and is worth over \$100,000. His wife was found with her head crushed in their bedroom on the morning of April 13, 1901, and the evidence on which McClurg was indicted and prosecuted was purely circumstantial.

Army Officer's Fall.

New York, July 12.—Edward H. Martin, formerly a lieutenant in the United States army who pleaded guilty a few days ago to a charge of passing worthless checks, was sentenced by Recorder Goff to one year in the penitentiary.

Newport Closed.

Newport, Ky., July 12.—The managers of the Newport racing track declared off all further races until Oct. 1.

SEVENTH NATIONAL.

Receiver Submits Preliminary Report. What It Shows.

Washington, July 12.—Comptroller Dawes received the preliminary report from the receiver of the Seventh National bank of New York city. The receiver states that his estimate of the value of assets is of course only approximate. He estimates the amount which will finally be recovered for the depositors from the assets, including stockholders' assessment, at about 80 cents on the dollar.

The receiver states that his estimate of the value of the Marquand collateral is less than is claimed by the directors of the bank and it is possible on this account that the final collections may be somewhat better than the receiver's estimate. Comptroller Dawes stated that all transactions connected with the advance of cash to the bank just prior to its failure are being carefully investigated. The comptroller ordered an assessment of 100 per cent on the \$500,000 capital stock of the bank. The report of the receiver contains no reference to any of the investigations now being made into the question of the existence of criminal infractions of law. All these matters are under the charge of the department of justice.

Steamship's Close Call.

Queens town, July 12.—The Cork Examiner prints a sensational story of the miraculous escape of a four-masted passenger steamer westward bound from being wrecked off the Fasnect rocks. The Examiner says the fog lifted in the nick of time to save the vessel from a fearful disaster. The light keepers at Fasnect were horrified to see a steamer from the east running full on the little Fasnect, 400 yards east, southeast. Fasnect immediately discharged an alarm gun, signaling urgent danger. Before the liner could be slowed up or her engines reversed, she had apparently touched the little Fasnect rock, as she was seen to list to starboard and then to port. Apparently uninjured she proceeded.

SENSATIONAL SUICIDE.

An Ohio Judge and Banker Kills Himself at Cincinnati.

Cincinnati, July 12.—A sensational suicide was discovered at the Palace hotel. The man was not identified for some time. It was then found that he was D. A. Russell of Pomeroy, judge of the circuit court and president of one of the banks. Nothing whatever is known of the cause. He left a sealed letter addressed to his wife, upon which was a special delivery stamp. Judge Russell killed himself in his room with a revolver. He was a prominent Republican and was a candidate for the nomination for supreme judge before the Republican convention in June.

No Rate War.

New York, July 12.—All prospects of a rate war in the territory of the Central Traffic association was ended at the recent meetings of presidents and other officials of the railroads in that territory. There has been for some time talk of disturbances in the middle west and south. The meeting showed that there had been a good deal of basis for the talk. The danger of the extension of the rate troubles of the west into the territory of the Central Traffic association became less and less apparent as the friendly spirit of the meeting developed and evidences of good business were discussed.

Glenn Trial.

Parkersburg, W. Va., July 12.—In the trial of Ellis Glenn, William Richardson positively identified the prisoner as Bert Glenn, who sold him a deed of trust in 1896. The prisoner was affected by this testimony and showed signs of worry for the first time. Richardson is a wealthy lumberman of Parkersburg and was the one who had Glenn arrested in Illinois and brought to this city over a year ago. The court room was crowded to suffocation. Many women were present. The trial is proceeding slowly.

National Educators.

Detroit, Mich., July 12.—This was the last day of the National Educational association convention, and when the session was called to order in Lightguard armory by President Green, the smallest audience of the week was present. "Higher Education," was the topic, papers being read by President Charles F. Thwing, of Western Reserve university, Cleveland; Robert B. Fulton, president of the University of Mississippi; Hon. W. T. Harris, national commissioner of education.

Philadelphia, July 12.—E. C. Schaffer, the University of Pennsylvania student who broke three American records at the A. A. U. swimming championships just completed at Buffalo, will sail for Europe in August and meet the best European amateurs in various tournaments.

STRIKE DECLARED OFF

Cincinnati Machinists Secretly Vote to Return to Work.

SEVEN THOUSAND MEN AFFECTED.

Strike Benefit Fund Exhausted and No Assistance to Be Had From Headquarters—Steel Workers' Conference—Labor Leaders.

Cincinnati, July 12.—The machinists' strike which was organized May 20, and which involved from five to seven thousand employees in this city, has been practically declared off. A secret mass meeting of strikers was held during the day, at which a formal report was made that it had been found to be impossible to procure assistance in money from the headquarters in Washington. As the strike benefit fund is exhausted, the strikers were advised to return to work. Already about 600 have applied for reinstatement and many more will do so Saturday and Monday. No official statement has been made by the leaders of the strikers, and they all refuse to be quoted, saying that they do not care to do anything that might affect the injunction proceedings against them, set for hearing July 15. The strikers failing to receive funds from Washington sent an agent to Washington to try to secure money. His report was presented to the meeting, and it was upon this that the action which virtually ends the strike was taken. It is said, however, that the decision to return to work was not unanimous, and that some men will still hold out.

Steele Conference.

Pittsburg, July 12.—When the conference between the Amalgamated association executive board and the officials of the American Sheet Steel, Steel Hoop and Tin Plate companies, to settle the existing strike, was resumed, the situation had apparently not changed from Thursday, although both sides appeared hopeful of ultimately reaching a settlement. Nothing could be learned from the conference, however, and an agreement was made not to give anything for publication until after the final adjournment. Gossip on the outside indicates confidence that the trouble will not be allowed to continue much longer, but the concessions of both sides will be necessary to a settlement this week. Previous to the meeting of the joint conference the executive committee of the Amalgamated association met and discussed the course to be pursued.

The conference adjourned at 4:30 p. m. to meet again Saturday morning. President Shaffer said the day had been devoted to discussion and nothing definite had been done.

Farm Laborers Organize.

Vincennes, Ind., July 12.—Farm laborers here, backed by the Federation of Labor, have formed a union and raised wages more than 50 per cent. William Brevort's 8,500 acre farm near here, is the one principally affected.

More Signatures.

Pittsburg, July 12.—Signatures to the Amalgamated scale received were Newport Rolling Mill company, Newport Ky., Ewald Iron company, Louisville, Ky., Detroit Spring company, Detroit.

Presbyterian Young People.

Warsaw, Ind., July 12.—The National Young Peoples' Christian Union of the Presbyterian church will hold its annual convention at Winona Lake, Ind., July 24 to 28. The association has a delegate representation of 2,500. Besides the delegates fully 2,000 visitors are expected. The noted speakers on the program just issued are Rev. W. H. Barr, of the national board of foreign missions; J. W. Baer, secretary of the International Christian Endeavor associations; Miss Lulu Harvey, director of the mission in Egypt; Rev. B. W. Vandeventer, of Scotland; Rev. M. G. Krie, of Philadelphia; J. W. Asherwood, of St. Louis; H. J. Heinz, of Pittsburg, and others.

Senator Hanna Guardian.

Cleveland, July 12.—Judge Dissette, of the common pleas court, appointed Senator M. A. Hanna guardian of the three children of his son, Daniel R. Hanna, by the latter's divorced wife. The action was taken as the result of an injunction issued prohibiting Mrs. Hanna from removing the children from the jurisdiction of the Cleveland courts. She, however, learned of the issuance of the injunction and with the children left the city for New York before the papers were served.

Mrs. Jefferson Davis.

Portland, Me., July 12.—The condition of Mrs. Jefferson Davis, widow of the president of the Confederacy, was reported as greatly improved. Her illness is not considered at all serious.

THAT Republican-ruled city of Philadelphia, where they "give away" street railway franchises in the face of offers of \$2,500,000, recently tried to float a loan of \$9,000,000 at 3 per cent., and succeeded in floating \$5,000.

A SPECIAL from Vanceburg says the Sheriff of Lewis County has offered the munificent sum of \$3 for the apprehension of John Jones, who some time ago, it is charged, murdered his father, James Jones, at Martinsville. Jones, Jr., may as well surrender. If he doesn't, that reward will fetch him.

KENTUCKY will spend about \$2,000,000 this year on the public schools. Last year the net school fund was \$1,689,308.11. The amount was reduced by a considerable deficit, which does not exist this year. There were 727,531 school children in the State last year, and the amount of the school fund per capita was \$2.45. The amount this year will be slightly in excess of that, about \$2.50.

It will be recollected that some ten years ago we had trouble with Chile—a lot of drunken sailors going ashore and insulting citizens of that country, being decently and meritoriously thumped. "True to our Yankee instinct of thrift," says the Georgetown News-Democrat, "the persons thumped put in claims for damages. The claims filed amounted to \$3,400,000. They went to a commission. Recently the commission reported and allowed the injured tars the sum of \$28,000. From three millions and a half to twenty-eight thousand! What a fall was there my countrymen!"

"FIGHTING BOB" EVANS may be a fighter and all that but he has forfeited the good will of the American people by a recent article on the Santiago battle. "The Greatest of All Fourths" is the title of the story written by Evans for Collier's Weekly, and he covers every commander in the battle with glory but Schley. He does not even mention the "Brooklyn" or her gallant commander as having participated in the fight. Evans is in a class along with Long and Sampson. The entire gang deserve the contempt of the American people for their treatment of Schley. It's to be regretted such men as Sampson and Evans can't be kicked out of the navy.

THAT Republican Legislature up in Pennsylvania was probably the most corrupt in the history of that corrupt State. The Pittsburg Post says:

One thing is certain. Never before in this State or any other State of the American Union was so much money used to corrupt legislation and the election of United States Senator as at the late session of the Pennsylvania Legislature.

There is no question that the bulk of the money was used in making Marshall speaker, as that performance carried so much else with it. The highest priced individual got \$20,000 for his vote, and that one vote defeated General Kootz and made a Quay heel Speaker of the House. All of which is pleasant reading for the Fourth of July, sometimes d-

scribed as the birthday of freedom. If these fellows had been in the continental Congress they would have sold out as readily as they did to the Quay machine.

Excessive prices for machinery forgings charged by the Midvale Steel Company and the Bethlehem Iron Company have aroused the Navy Department and ship contractors, and Congress may be appealed to in order to secure permission to obtain crank shaftings for new battleships from English manufacturers. —Exchange.

It would be just awful if Uncle Sam should refuse to be "held up" any longer by the steel makers. They have grown rich off of the government.

COL. JAMES KILBOURNE, Democratic nominee for Governor of Ohio, is a manufacturer, and if the statements below are true, there are few like him. W. P. Campbell, of the Cincinnati Post, writing from Columbus of Col. Kilbourne, says:

Col. Kilbourne knows each employee intimately. He is the legal adviser for all. Men are kept on the pay roll for years. Sick employees are sent to Colorado and Asheville, N. C., at the company's expense. The whole force was sent to the World's Fair in 1893, during the hard times, for three days, the company paying the whole cost. The employees are given a train trip and outing every year. This summer a three days' excursion to the Pan-American Exposition, at Buffalo, is scheduled. Col. Kilbourne is chief mourner at the death of an employee. He is first at the bedside of the sick. Mrs. Kilbourne follows, and the family sends flowers. Each employee gets a turkey on Thanksgiving and Christmas.

DON'T LEAVE THE CITY.

Plenty of Proof Right Here in Maysville.

Claim is one thing, proof another. Columbus claimed the world was round.

Mr. C. H. Cooper, of 210 West Second street, says: "For many years I suffered from attacks of kidney trouble, and had reason to think I was fast drifting into Bright's disease. I had the great good fortune to learn about Doan's Kidney Pills and procured them at J. Jas. Wood & Son's drugstore. The remarkable benefit I obtained from the treatment is a guarantee of the marvelous value and effectiveness of Doan's Kidney Pills."

The farmers of Dutch Ridge, Bracken County, held a meeting last Saturday night, the purpose of which was to discuss the necessity of concerted action in regard to the destruction of the tobacco moth by means of cobalt in jimson bloom. Already the tobacco plants are covered with worms resulting from the vast number of worms last season and unless something is done to destroy the fly it will be well-nigh impossible to prevent the destruction of the crop. Let Robertson farmers imitate our Bracken neighbors. Ten cents worth of cobalt will last a year and it is much easier to kill the fly than to hunt the worms.

TIRED OF THE WAR.

British Continually Making Offers of Peace to the Boers

London, July 12.—Referring to the government's admission that they had information respecting the shooting of British wounded at Viakfontein so long back as June 11, the Daily Mail, whose correspondent was the first to make the news public, states that this is only a small portion of the policy of concealment now being carried on. It professes to have abundant evidence that almost the whole theater of war is in much worse condition than the public is allowed to know. The state of affairs in Cape Colony in particular is said to be of a most serious nature, due almost entirely to the belief among the Dutch that the constant efforts of the British to propitiate them prove they are tired of war. While the government is constantly saying in public that the war will be fought to a finish they are, says the Daily Mail, continually making offers of peace to the Boers.

O. H. P. Thomas & Co., Nos. 120 to 124 Market street, Maysville, Ky., sell Old Time Bourbon and Maysville Club Rye, direct from the distillery, by the quart, gallon or barrel; the finest in the State; guaranteed pure and as represented as to age.

THE H. E. FOGUE DISTILLERY CO.

The Western Recorder, of Louisville, one of the leading Baptist journals of the South, pays a popular Maysville pastor this compliment: "We are sorry to lose from Kentucky the Rev. Dr. J. W. Porter, who leaves Kentucky to become pastor of the First Church at Newport News, Va. He is a most efficient man, and we expect to hear fine reports of his work in his new field. He has a sound mind in a sound body with a sound heart and a sound faith. We will greatly miss him."

Dr. Porter's many friends would regret exceedingly to see him leave Maysville. He is not only an able and eloquent speaker, but is one of the most popular pastors the church has ever had. He has been absent from the city a week or so, and it could not be learned whether he had accepted the call, or not.

Young Women

The entry into womanhood is a critical time for a girl. With her whole being undergoing a change, the seeds of female troubles are sown. Little menstrual disorders, if neglected at the time, will follow the woman all her life and grow into fatal complications. That female troubles are robbing homes and filling graveyards, proves this. Yet, irregular and painful menstruation are often permitted to go on, sapping the life and energy, while Wine of Cardui, the positive relief for these ills, is on the shelf of every drug store. Wine of Cardui helps the maiden sustain the shock of puberty by inducing a painless and natural menstrual flow. When once this important function is started right, a healthy life will usually follow. Wine of Cardui is an emmenagogue of great power, and works wonders in strengthening the delicate and sensitive female organs. Many young women owe their lives to Wine of Cardui. No woman should give up hope until she has given Wine of Cardui a trial. If thousands have secured relief through it, why not you?

WINE OF CARDUI

Tully, Kas., Feb. 24, 1902.
I have suffered untold pain at menstrual periods for a long time; was nervous, had no appetite, and lost interest in everything; in fact was miserable. I have taken four bottles of Wine of Cardui with Black-Draught when needed and to-day I am entirely cured. I cannot express the thanks I feel for what you have done for me.

RAISE IN RATE.

Grand Lodge, K. of P., Reaches This Decision in Regard to Endowment Rank.

CHICAGO, July 12.—The Supreme Lodge, K. of P., has decided to make up the \$500,000 Endowment Rank deficiency by raising the insurance rate to the maximum adopted by the National Fraternal Congress. If this is not sufficient a special assessment of 50 cents per member will be made. Foreclosure suits will be filed to save as much as possible of doubtful investments.

Exchange: "Take the number of your living brothers. Double the amount. Add to it three. Multiply the result by five. Add to it the number of living sisters. Multiply the result by ten. Add number of deaths of brothers and sisters. Subtract 150 from the result. The right hand figure will be the number of deaths, the middle figure the number of living sisters, and the left hand figure will show the number of living brothers."

The health of Rev. D. B. Cooper, of the Kentucky Conference, M. E. Church, South, has become so poor that he has been compelled to quit preaching. Dr. Robert Hiner is now in charge of the churches at Sharpsburg and Bethel, to which Mr. Cooper was assigned for the year.

Professors M. W. Dickey and S. R. Cotterill, of Fleming, will be here next Thursday to attend the teachers' examination. Mr. Dickey will have charge of the Washington school the coming session.

Notice To Wheelmen.

There's positively no need to endure discomfort by reason of chafing, sunburn, insect stings, sore and perspiring feet or accidental bruises. You forget these troubles in using Bucklen's Arnica Salve. Infalible for pimples, blotches, skin eruptions and piles. Sold by J. J. Wood & Son; 25 cents.

The Haymakers got back from Minerva at 4 o'clock this morning. Henry Ray was still able to beat the big drum, and the hornetists blew an occasional solo. Billy Lynch, astride a little donkey, led the procession Friday afternoon. Two of his companion haymakers with inch ropes attached led the donkey, so the donkey didn't escape. It is not necessary to add that the crowd had a great time out at Minerva.

COMING THIS WAY.

Another Electric Railway Projected From Xenia South to the Ohio River.

[Xenia, O., Gazette.]

It will be noted that a traction line to run from Xenia to Wilmington has been incorporated at Columbus with a capital stock of \$500,000. This is only a nominal sum and the capital when the time comes for it will be increased to \$500,000. This work is to be done by Cleveland capital, and a party from that city will be here during the week to make a drive over the entire route all the way to the Ohio river, as the road is not to stop at Wilmington, but is to go right south to the Ohio river.

We have from unquestionable authority that the enterprise will be put right through and anyone who will look at the map, and consider the conditions that exist, will see that no better opening for a paying line offers in the State. The road to Wilmington is to be built either by the way of Jamestown and New Jasper or direct over the Wilmington pike, and in either case on a private right of way. The line is practically an extension of the Dayton and Springfield lines and will have traffic arrangements with each. The line will be later extended to Hillsboro and thence to the Ohio river.

The information we have of this enterprise comes so direct that we give it as something settled. That it will be the very best line for Xenia that could be constructed goes without saying. It opens up a wide and populous country which has hitherto been without a railroad and makes a direct north and south line for communication, the want of which has been felt in Xenia, Wilmington and Hillsboro for a generation, and the travel from south to Xenia, Dayton and Springfield, and the reverse, will be fully as great as that in any other direction.

New Traction Company.

COLUMBUS, O., July 12.—The Hillsboro and Ohio River Traction Company, of Hillsboro, \$10,000 capital, was to-day incorporated to build a line from Hillsboro to Aberdeen.

Berries and spring vegetables, Callahan's.

Gov. Beckham has appointed Rev. L. E. Mann to serve out the unexpired term of County Judge Nickell, of Rowan County. Nickell resigned on account of ill health.

Regular services at M. E. Church, South, to-morrow morning. Prof. C. C. Fisher, President of Millersburg Female College, will preach. On account of the union meeting there will be no services at night.

Bowling Green reports a temperature of 108° Thursday, Hopkinsville 107°, Paducah 106°, Shelbyville 106°, Greensburg and Bardstown 104°, Louisville 103°, while in Maysville 102° was the highest notch reached.

Poyntz Bros. are the only Maysville distillers selling pure liquors by the quart, gallon or barrel, direct from distillery to consumer. Seven-year-old whisky \$2 per gallon. Age and quality guaranteed. Get the best. Office 126 Market street—Watson's old stand.

Covington Commonwealth: "Our venerable friend, P. W. Edgington, of Maysville, is visiting friends in this city. Mr. Edgington is an old time Democrat and is a great reader of the current literature of the day. He especially dotes on the Commonwealth and is a visitor to this office every day when in Covington."

An interesting feature of Auditor Coulter's biennial report to the General Assembly, now in course of completion, will be a table showing the amount of money on deposit in the banks all over the State and the amount of money on deposit which is assessed for taxation. It is claimed the figures will show an enormous amount of reserve cash that escapes taxation every year, and it will probably result in measures being taken to get this money listed for ensuing years.

It Dazzles The World.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. It's severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by J. Jas. Wood & Son who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

Where Water Caused a Fire.
It seems queer to think of water being the
cause of fire. Still it has been, and on a very
large scale, on the coast of Ireland. For centuries
the great waves had been breaking down the
rocks which lined her seashore, and at last the
water reached some masses of stone that held
large deposits of iron pyrites and alum. The
water washing over the deposits caused a natural
process which is known as oxidation and which
causes such a fearful heat that the whole cliff be-

came a volcano for weeks, and when the fire at last burn-
ed out nothing was left of this once towering cliff
but a mass of crumbling brick.

The novel proposition is made to the druggists
of Chicago that they equip their soda water
fountains with apparatus so that they can be
used in case of fire to extinguish the blaze. It is
agreed that the prompt use of the power avail-
able would save many a dollar's worth of prop-
erty.

The manufacture of coke ash brick is a very
simple one. The ashes are carefully reduced to a
fine powder, mixed with one-tenth part of slack-
ed lime and after the addition of water kneaded
until the mass forms a stiff paste. Then it is
treated like ordinary clay and formed into brick
by the use of suitable presses. The bricks are
then stacked, protected from rain and dried in
the air. No artificial heat is required. The air
dried bricks are very hard and make excellent
building material.
